Museum Association of New York

COVID – 19 Safety Policy for In-Person Events

Adopted April 14, 2021

With the safety of our colleagues foremost in mind, attendees at programs offered by the Museum Association of New York agree to adhere to the following for 2021 in-person events:

- Attest they are two-weeks past but within six months* of a completed vaccination program or have received a negative PCR COVID-19 test within 72 hours of the program and have not been exposed to anyone who tested positive for COVID-19 within the past 10 days.
- Agree to adhere to CDC and New York State Dept of Health guidelines for safe gatherings regardless of vaccination status or presence of anti-bodies. The requirements mandated by the site of gathering will prevail if they are more stringent than the guidelines offered by the CDC, New York State Department of Health, or MANY. MANY will rely on the host organization in the administration of those requirements.
- As of 4/15/2021 these requirements will include wearing masks appropriately, practicing social distancing, practicing practical sanitation procedures, and any other safe gathering guidelines in place at the time of the program.
- MANY will be asking attendees to acknowledge the policy as part of the registration process and to sign an attestation upon arrival at the program. We are relying on the integrity and honesty of our colleagues and will not be collecting proof of vaccination, proof of a negative test, or medical records.

**subject to change based on vaccine manufacturer, CDC, and NYS Department of Health Guidelines.*
